

## IP Telephones

The key to rapid adoption of technology solutions in your business is ease of use. Therefore, we complement our extensive SmartPipe hosted PBX feature set with the power and ease of high-performance Cisco IP telephones. With large LCD displays, soft key access to functions, full duplex speakerphones, and one touch access to voice mail, users will be more productive. And, with multiple Cisco IP phone styles available, your business can ensure that every user has the features and functions they require to perform at the highest level.

### Cisco IP Phone 7912G

The Cisco IP Phone 7912G is designed to be easy to use with conveniently placed features.

- Pixel-based display—A pixel-based display provides intuitive access to calling features.
- Four soft keys dynamically present calling options to the user.
- “Menu” key - This key allows users to quickly access information such as call logs and phone settings.
- The user can retrieve voice-mail messages.
- The user can display missed calls, outgoing calls placed, and incoming calls received.
- The user can set various preferences such as ring types and display contrast.
- “Hold” key - This lighted key provides users a red visual indication that they have placed a call on hold.
- A volume-control toggle provides easy decibel-level adjustments of the handset and ringer.
- Intercom speaker with one-way audio.
