

## LinkStream

Designed with small and medium businesses in mind, *LinkStream* helps you make the most of your communications investment by converging voice, data, and Internet traffic onto a fully managed, dynamic IP connection. With seamless connection to your existing LAN and PBX or key phone system, *LinkStream* lets you IP-enable your business while keeping your current investment in telecom systems. So stop dealing with multiple providers, inflexible networks, and high voice trunk costs. Switch to *LinkStream* from OneStream Networks and get connected today.

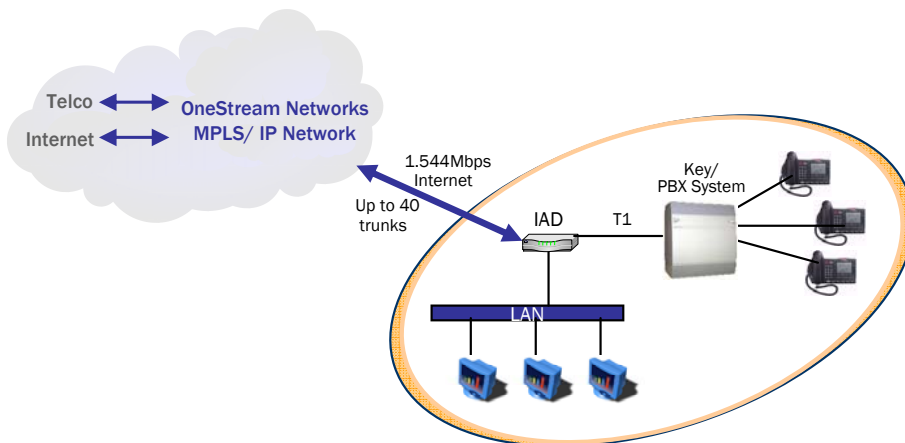

Whatever your business goals, *LinkStream* gets you connected.

**Reduce costs** with unlimited local calling, unlimited office-to-office calling, and competitive long distance rates. Typical cost reduction of 20-40%.

**Improve productivity** by seamlessly connecting voice and data from multiple offices, work@home users, and mobile employees.

**Protect and improve your investment** in an existing PBX or Key phone system by connecting *LinkStream* via T1 or copper line/trunks while simultaneously adding 1.544Mbps Dedicated Internet Access.

**Gain control** by eliminating multiple lines, multiple vendors, and multiple bills.

### Support and Quality Assurance:

OneStream Networks is a leader in designing, deploying, and supporting high-performance QoS networks. With a world-class IP network, best-practice 24/7 monitoring, on-site support, and passion for exceeding customer expectations, OneStream Networks is a partner you can rely on both today and into the future for all your communications needs.

### Next Generation Local, Long Distance and High Speed Internet Access

- **Single Source Solution** – local, long distance, and Internet services from a single provider.
- **Next Generation Connectivity** – IP T1 connectivity offers dynamic convergence of voice and data for maximum performance. Get up to 40 trunks and a full T1 of Internet on a single T1.
- **Investment Protection** – Keep your current PBX or Key system.
- **Flexibility** – Connect IP Trunks to existing PBX or Key system via T1 or copper trunk lines.
- **Reduce Costs** – Unlimited local and office-to-office calling. Highly competitive long distance packages.
- **IP Migration Strategy** – *LinkStream* IP-enables existing systems allowing you to migrate to a total IP solution over time.
- **Gain Control** – Single provider and single bill increases control and reliability.
- **Improve Productivity** – Add *GoStream* collaboration tools including enhanced email with IM and desktop collaboration software.
